## **STEP 2: Make a Google slides presentation!**

Using the information from your outline, you will make a Google Slides presentation.

### **How many slides does my presentation have to be?**

I think the presentation should look like this:

- Title slide with your name and the title of your presentation
- 1-2 slides that talk about the name of the unsolved mystery you chose
- 1-2 slides that show where the location of the unsolved mystery is
- 2 maps that show where the unsolved mystery happened/happens
- 3 Pictures of the location where the unsolved mystery happened/happens
- 3-4 slides that talk about the background of the unsolved mystery
- 3-4 Pictures of the people involved in the unsolved mystery
- 1-2 Pictures that people have taken that might show any signs of paranormal activity.
- 1-2 slides that talk about any investigations related to the unsolved mystery you chose, including at least 1 picture
- A slide that shows Mr. O'Neill where you got your information from

### **Do I need to have pictures in my presentation?**

YES! Put as many HELPFUL pictures as possible. If you think putting in a picture will help you explain your unsolved mystery better, then put the picture in!

### **Does spelling count?**

YES. I will be checking for spelling, grammar and punctuation. Please make sure you edit your presentation and have another person look over your presentation for mistakes.

### **What if I forget something?**

Make sure you look at your outline as you make your presentation. That way, you won't forget. Also, Mr. O'Neill will give you a 'checklist' to help you remember everything!

**\*\*\*Once your presentation is done, look at the PRESENTATION CHECKLIST & PRESENTATION RUBRIC to make sure you've included everything you need to!**
